

City Planning and Development Coordinator's Office – Zoning Administration External Services

1. Application for Locational Clearance for Building Permit: New, Renovation & Interior Renovation (Partial One-Stop Shop)

All applicants constructing a new building or applying for expansion/renovation are required to secure Locational Clearance as a pre-requisite for the building permit. The Locational Clearance is a document that shows conformity of the proposed structure as per the Comprehensive Land Use Plan (CLUP).

| When applicable: 1. Right to use or deed of sale of right-of-way for access road and, subject to just compensation for private land. FINAL REQUIREMENTS 1. All requirements for application for preliminary subdivision development plan as specified above. 2. Subdivision Development Plan consisting of the site development plan as specified above. 2. Subdivision Development Plan consisting of the site development plan at any of the following scales: 1:200; 1:1,000; or any scale not exceeding 1:2,000; showing all proposals including the following: a. Roads, easements or right-of-way and roadway width, alignment, gradient, and similar data for alleys, if any. b. Lot numbers, lines and areas and block numbers. c. Site data such as number of residential and saleable lots, typical lot size, parks and playgrounds and open spaces. (The subdivision development plan shall be prepared, signed and sealed by any licensed and registered architect, environmental planner, civil engineer or geodetic engineer.) 3. Civil and Sanitary Works Design Engineering plans/construction drawings based on applicable engineering code and design criteria to include the following: a. Road (geometric and structural) design/plan duly signed and sealed by a licensed civil engineer (2 Original Copies). (1) Profile derived from existing topographic map, showing the vertical control, designed grade, curve elements and all information needed for construction. (2) Typical roadway sections showing relative dimensions of pavement, subbase and base preparation, curbs and gutter, sidewalks, shoulders benching and others. (3) Details of miscellaneous structures such as curb and gutter (barrier, mountable and drop), slope protection wall, rip rapping and retaining wall. b. Storm drainage and sanitary sewer system duly signed and sealed by a licensed sanitary engineer or civil engineer (2 Original Copies). (1) Profile showing the hydraulic gradients and properties of sanitary and storm drainage lines including structures such as avairous types of | improvements planned by public authorities for future construction within/adjacent to the subdivision. c. Survey Plan of the lot(s) as described in TCT(s). | |

9. Appeal for Variance or Exception

Property owners can apply for appeal for Variance or Exception with the City Zoning Board of Appeals and Adjustment. Variance relieves property owners from provisions of the Zoning Ordinance due to the uniqueness of their property that gives them hardship from complying with said provisions. Exceptions, on the other hand, grant property owners relief from the provisions from the Zoning Ordinance where due to the use, it will give them hardship. Note that variances and exceptions must meet a set of conditions that must be satisfied and not just a desire to make money.

10. Issuance of Notice to Proceed (NTP) - for Occupancy Permit

Section 75 of City Ordinance 2020-26, otherwise known as the "Integrated Zoning Ordinance of the City of San Pedro, Laguna", the Office of the Building Official (OBO) cannot issue a Certificate of Occupancy without certification from the Zoning Administrator's Office that the project has complied with the conditions stated in the issued Locational Clearance. Failure to comply will result to the delay in the issuance of NTP.
